VERSE 1

Whatcha gonna do
When the goin' gets rough?
Are ya gonna come through?
Will ya have the right stuff?
Give a little inch, you give a mile or two
Ya gotta hold your ground
Ya gotta be true blue

BRIDGE

You can shade your eyes
You can try to hide
But you can't shade the color of the truth
You know inside

CHORUS

Black is black (black is black)
White is white (white is white)
Left is left (left is left)
Right is right (right is right)
Day is day, night is night
Stand with me and we'll shine this light
Wrong is wrong and right is right

VERSE 2

Stoppin' at the red light
Green light, "Go!"
Yellow, make your mind up
But you can't be slow
Everybody see, not everybody do
So what's it gonna be when it's up to you?

BRIDGE & CHORUS

(repeat)
