## VERSE 1

What you see isn't always what you get  
What looks good now  
May not be in the end  
So think it through—  
Don't wind up with a regret  
And you will find wisdom  
Is forever your friend

## CHORUS

Hey! C'mon, c'mon, be wise  
And open up your eyes  
So you can see what's best for you  
Hey! C'mon, c'mon, be wise  
Open up your eyes  
So you can choose what's good and true

## VERSE 2

You may have  
All the money that you need  
And you may hang  
With a crowd that's really cool  
One thing's sure—  
None of it will mean a thing  
If what you choose is gonna  
Leave you playin' the fool

## CHORUS

Hey! C'mon, c'mon, be wise  
Open up your eyes  
So you can see what's best for you  
Hey! C'mon, c'mon, be wise

Open up your eyes  
So you can choose what's good and true

### **BRIDGE**

There's a better chance that  
You'll be going far  
When you understand things as they are  
C'mon, c'mon, be wise  
There's more to life, be wise

### **CHORUS**

Hey! C'mon, c'mon, be wise  
Open up your eyes  
So you can see what's best for you  
Hey! C'mon, c'mon, be wise  
Open up your eyes  
So you can choose what's good and true  
Oh, yeah  
So you can always see what's best for you  
Best for you  
And you can always choose what's good and true
