

Finish What I Start

I am determined just to make it through
These tasks; sometimes it's hard for me to do
My chores and homework right after school
I cannot let it overtake me
Other times when the going gets rough
I've got to stick it out and be tough
I know I have all the right stuff
And I know that I can make it

'Cause determination is my motivation I'm not going to quit until I'm finished
I'm not going to stop until I'm done I'm not going to walk away until it's over
I'm going to finish what I start, finish what I start

It takes courage not to give up
The reward is better when you finish up
I know because I've been there before
So keep on moving till you make it

'Cause determination is my motivation I'm not going to quit until I'm finished
I'm not going to stop until I'm done I'm not going to walk away until it's over
I'm going to finish what I start, finish what I start, yeah

I know that life gets hard But don't give up No, no, no
I'm not going to quit until I'm finished
I'm not going to stop until I'm done
I'm not going to walk away until it's over
I'm going to finish what I start, yeah

'Cause determination is my motivation I'm not going to quit until I'm finished
I'm not going to stop until I'm done I'm not going to walk away until it's over
I'm going to finish what I start

I'm not going to quit until I'm finished I'm not going to stop until I'm done
I'm not going to walk away until it's over
I'm going to finish what I start, yeah, finish what I start
