

Light It Up

Music & words by Christina L. Fincher ©2010 Amber Sky Records (ASCAP). All rights reserved.

Light it up, light it up
Light it up, light it up

We all have trouble, we all have bad days
We won't let worries get in our way
(get in our way)
No matter how hard, it won't get me down
I'm gonna show the world all around me
That I've got joy, yeah, deep in my heart
And it's the thing that sets us apart
(sets us apart)

Light it up, light it up
Light it up, light it up

We all have trouble, we all have bad days
We won't let worries get in our way
No matter how hard, it won't get me down
I'm gonna show the world all around me
That I've got joy, yeah, deep in my heart
And it's the thing that sets us apart
(sets us apart)

Light it up, light it up
Light it up, light it up

I want the world to see
I want the world to see
I want the world to see
The light and love inside me
We want the world to know
The joy we have that makes us glow

Light it up, light it up
Light it up, light it up
Light it up, light it up
Light it up, light it up
