Whatcha gonna do when  
You tell a little lie  
And the lie adds up and  
Begins to multiply  
Soon you got troubles  
That you just can't hide  
And you don't feel right 'cause  
You feel it inside  
That's why honesty  
Is what you need

Say so, make your word good  
Do what you say like you know  
That you should  
Say so, always be true  
Do what you say, yeah  
That's what you gotta do  
Do what you say, yeah  
That's what you gotta do

So listen real close to some good advice  
When it comes to your word don't  
You ever think twice  
Live so that people can count on you  
'Cause you want people you can  
Count on, too  
That's why honesty  
Is what you need

Say so, make your word good  
Do what you say like you know  
That you should  
Say so, always be true  
Do what you say, yeah  
That's what you gotta do  
Do what you say, yeah  
That's what you gotta do

Do what you say  
Say what you do  
Then everyone can trust in you

Say so, make your word good  
Do what you say like you know  
That you should  
Say so, always be true  
Do what you say, yeah  
That's what you gotta do

Say so, make your word good  
Do what you say like you know  
That you should  
Say so, always be true  
Do what you say, yeah  
That's what you gotta do  
Do what you say, yeah  
That's what you gotta do  
Do what you say, yeah  
That's what you gotta do
