Together we can do what we could never do alone  
We can get the, get the job done

I see you working, struggling  
Whatcha say we join hands  
We can do it together  
So here I am on the line, ring-a-ling  
'Cause every strand that you add  
Only strengthens the tether

## CHORUS

Together we can tackle anything on your plate  
I'll be beside you every step of the way  
We're at our best when we cooperate  
Hand in hand, that's the plan because together  
Together we can

Together we can do what we could never do alone  
We can get the, get the job done

I see you working, struggling  
Whatcha say we join hands  
We can do it together  
So here I am on the line, ring-a-ling  
'Cause every strand that you add  
Only strengthens the tether

## CHORUS

Together we can tackle anything on your plate  
I'll be beside you every step of the way

We're at our best when we cooperate  
Hand in hand, that's the plan because together  
Together we can

Together we can do what we could never do alone  
Together we can do what we could never do alone  
Together we can do what we could never do alone  
What do we need? Teamwork!  
What do we need? Teamwork!

I know together we're better than ever before  
Hand in hand we can do much more  
Whether we're an awful lot alike or not  
We're still a team and that means a lot  
(2x)

## **CHORUS**

(repeats)
